Subject: [Non-DoD Source] Fwd: Situation reporting and EOC for Maywood

Here's a sample of the sitrep that our management would like. Can sitl do something like this?

Michelle Rogow
On Scene Coordinator
USEPA Region 9

Subject: Situation reporting and EOC for Maywood

Hi all,

We will want to do an EOC level sitrep on the response this afternoon or tomorrow.
Wondering whether we've found an EOC SITL or if that should be me. Whomever we

get we need to get them notes, pictures maps etc. Let me know which of you in the field can be the point person for the EOC SITL.

Approach can be any number of ways but I recommend an ER blast update as I've been doing. Polreps are sources of info but notes from the plans mtg yesterday were ideal. I know START takes notes maybe they can email. Also or alternatively have your plans chief or SITL email the IAP or better the SITREP.

Good sitrep example attached just FYI.

Thanks for your awesome efforts!!

Subject: Example: R7: MO Flood Response 2015 Daily highlights - 1/14/16

Subject: MO Flood Response 2015 Daily highlights - 1/14/16

MO Flood Response 2015 Thursday, January 14, 2016

1. Documentation Unit / Records Management made easy – All flood related emails include MOFlood2015@epa.gov<<mailto:MOFlood2015@epa.gov>>.
2. ESF #10 HHW/white goods/electronic goods Mission Assignment (MA) of \$1,150,000 (25% state cost-share).
3. ESF #10 Construction and Demolition (C&D) debris MA of \$3,000,000 (25% state cost-share).
4. OPS Chief Joe Davis: Two household hazardous waste/white goods collection teams were active today. Seven debris pickup teams were active today. Debris collection activities are done in concert with HHW separation at curbside. C&D debris is loaded into separate trucks and routed directly to transfer station or solid waste landfill.
5. HazMat Branch OSC Ruiz reported great progress. OSC Smith / Boat Recovery team was active today. Several “targets” were identified. Smaller “targets” (drums/containers) were recovered and transferred to EPA HHW staging and collection area. See attached pictures.

6. Public Information Officer Whitley reported all positive media coverage. National Guard TV was filming a piece in St. Charles on effective debris removal operations.

7. Deployments planned for tomorrow: Ken Buchholz to JFO. Eric Nold, OSC to OPS. Andrew Gieseke, RPM to debris team.

8. Personnel “in theatre” – near the vicinity of flood-impacted areas on Monday, January 11:

- * 8 EPA
- * 5 State On-Scene Coordinators
- * 5 START contractors
- * 45 ERRS contractors

9. Total HHW collection count to date : 6,014*

10. Total C&D debris collection to date: 1,806 cubic yards

* HHW includes cleaning products, lawn and garden products, indoor pesticides, automotive products, flammable products, paints, batteries
